

MORE INFORMATION

EPIC BLAST

HY-PRO BLOOM BOOSTER FOR COCOPEAT PLANTS

The HY-PRO bloom booster Epic Blast provides all the essential nutrients to achieve healthy and favourable flowering in plants. This fertilizer is manufactured with high-end chelating agents, hormones, phosphorus, potassium, and vitamins that boost the growth of your plants and help in achieving heavier and healthier harvest. During the flowering phase, plants can deplete these elements in the rhizosphere fairly quickly, on occasion in less than 72 hours. So, how exactly do you get a bigger harvest? Your crop success is the direct result of how attentively you nourish your plants - and the products you use to nourish them.

HY-PRO Epic Blast helps in improving the quality and density of yield during the flowering stage. HY-PRO bloom boosters stimulate an increase in plant metabolism and provide the essential nutrients needed, which is exactly what your plants need during fruiting and flowering period.

HY-PRO EPIC BLAST IS A SPECIALLY DEVELOPED FOR COCO(PEAT) SUBSTRATES

** EXTRA PHOSPHORUS FOR PHOTOSYNTHESIS

HY-PRO Bloom booster EPIC BLAST provides plants with extra phosphorus for photosynthesis

** EXTRA POTASSIUM FOR HEALTHY PLANTS

HY-PRO Bloom booster EPIC BLAST provides extra potassium for healthy crops and plants

** EXTRA SULPHUR FOR PROTEIN SYNTHESIS

HY-PRO Bloom booster EPIC BLAST provides plants with extra sulphur for protein production

PRODUCT SIZES

250 ML - 500 ML

1 LITER - 5 LITER - 10 LITER

PRODUCT APPLICATION

1 ML

1 LITER WATER

PRODUCT COMBINATION

** HY-PRO **EPIC-BLAST** can best be used with the fertilizer break down below

COCO ROOTS

COCO A+B

SPRAY MIX

GENERATOR

EPIC BOOST
