PLANT VITAMINS FOR HEALTHY INDOOR AND OUTDOOR PLANTS

If you're looking for an additive that improves the overall health of your plants or crops - HY-PRO Generator - HY-PRO's state-of-the-art plant care product should be top of your list. HY-PRO generator is a specialty additive that will provide your plants with all essential micronutrients and trace elements throughout their life cycle. Among them we find important elements as manganese, zinc, boron, copper and molybdenum. Generator from HY-PRO is the additive that cannot be missing from your fertilizer toolkit. Moreover, it is a multipurpose product that adapts to all types of substrates.

HY-PRO generator constitutes an ideal mix of trace elements. These elements, with the right dosage, can help to keep plants and crops growing more consistently and therefore producing more flower or fruits. HY-PRO generator stimulates maximum growth and flowering and leaves no residue.

HY-PRO GENERATOR HELPS YOU TO MAXIMIZE YOUR PLANTS POTENTIAL
