

MORE INFORMATION

EPIC BOOST

HY-PRO BLOOM BOOSTER FOR HYDROPONIC PLANTS

The HY-PRO Bloom booster - Epic Boost has been specifically formulated to maximize plant growth and development in hydroponic systems and aeroponic systems. You can use it with most soil-less plant growth media including perlite, vermiculite, and rockwool. HY-PRO fertilizer Epic Boost fuels metabolic rate of the plant, strengthens the immune system, brings resistance to disease and improves the overall quality of flower. The HY-PRO Bloom Boosters are a highly concentrated and powerful flowering enhancer that delivers explosive and proven results.

Productive plants need additional support when flowering! To achieve a plentiful harvest, a bloom booster composed with extra phosphorus, potassium, sulphur and a blend micronutrients can make a huge difference. Apply a HY-PRO Epic Boost at least once a week while the plant is producing of flowers.

HY-PRO EPIC BOOST IS A SPECIALLY DEVELOPED FOR HYDROPONIC SUBSTRATES.

** EXTRA PHOSPHORUS FOR PHOTOSYNTHESIS

HY-PRO Bloom booster EPIC BOOST provides plants with extra phosphorus for photosynthesis

** EXTRA POTASSIUM FOR HEALTHY PLANTS

HY-PRO Bloom booster EPIC BOOST provides extra potassium for healthy crops and plants

** EXTRA SULPHUR FOR PROTEIN SYNTHESIS

HY-PRO Bloom booster EPIC BOOST provides plants with extra sulphur for protein production

PRODUCT SIZES

250 ML - 500 ML

1 LITER - 5 LITER - 10 LITER

PRODUCT APPLICATION

PRODUCT COMBINATION

** HY-PRO **EPIC-BOOST** can best be used with the fertilizer break down below

HYDRO ROOTS

HYDRO A+B

SPRAY MIX

GENERATOR

EPIC BOOST
